SUBJECT INDEX, VOLUME 60

Adrenal cortex
- hydrocortisone suppression of stress-induced adrenal 17-OH-CS secretion in dogs, 99
- secretion *in vitro* as influenced by sex steroids, 130
- anti-inflammatory action and cotton pellet granuloma assay, 153
- study of morphology in rat, 247
- secretion as influenced by pantothenic acid, 298
- distribution of cortisol-4-C^{14} in normal and shocked rats, 347
- isolation of two corticoids from bile, 368
- effects of corticoids on mucopolysaccharides in rat skin, 376
- *in vitro* hydroxylation of 21-carbon steroids, 382
- influence on calorigenesis, 403
- *in vitro* steroidogenesis by human and monkey adrenal glands, 433
- histology in wild and domesticated rats, 460
- corticoid effect on lathyrism, 507
- aldosterone effect on excretion of i.v. saline, 562
- in estrogen withdrawal bleeding in hypophysectomized baboon, 570
- function after autotransplantation into portal circulation, 575
- relations to capillary resistance, 589
- influence on phosphorylase activity in skeletal muscle, 619
- alterations in function induced by sodium deficiency, 634
- alterations in structure and function induced by sodium deficiency, 641
- insufficiency symptoms and revival by 2-methyl-9α-fluorohydrocortisone in dogs, 658
- regeneration hypertension reversed by amphenone, 677
- effect of cortisone on hepatic necrosis of dietary origin in the rat, 711
- function and conditioned behavior in rhesus monkey, 741
- and hypokalemia in acute decompression stress, 761
- ablation and effect of analogues of hydrocortisone on blood pressure during sodium restriction, 768
- ablation and age retard estrogen induced connective tissue hyperplasia in seminal vesicles, 785

Adrenal medulla
- temperature effect on potentiation of adrenalin by thyroxine, 205
- and phosphorylase activity in skeletal muscle, 619
- during postnatal development, 753

Aldosterone
- preparation of urine extracts for assay, 136
- in adrenal vein blood of nephrotic rats, 420
- effect on renal excretion of saline i.v., 562

Androgens
- influence of testosterone on growth of urinary bladder, 80
- influence on guinea pig muscles of inanition and castration, 144
- comparison of routes of injection on capon comb response to testosterone propionate, 173
- testosterone effect on submaxillary gland enzymes after hypophysectomy, 200
- effect on glycine-C^{14} uptake in rat uterus, 270
- action on myosin, collagen, *et cet ra*, in striated muscle of gonadectomized rats, 273
- effect on incorporation of labeled glycine in mouse kidney slices, 290
- effect of T.P. on acid soluble and insoluble glycogen in levator ani, 397
- influence of C-19 steroids on growth of individual muscles in guinea pig, 607

Antigonadotrophin
- effect of antiserum on post-irradiation changes in reproductive system of female mice, 718

Corticotropin
- secretion as influenced by tranquilizing drugs, 239

control of release, an *in vitro* study, 488
releasing activity of extracts of pars neuralis *in vivo*, 664

Eosinophil
decreased sensitivity of depletion test in rat exposed to low ambient temperature, 573
Estrogens
effect on cholesteremia in rat, 22
effect on glycine-C^{14} uptake by rat uterus *in vitro*, 270
and vaginal sensitivity of mice of inbred strains, 532
and compounds with antiestrogenic activity *in vitro*, 552
prolonged action failed to produce squamous metaplasia, 571
bioassay based on duration of action, 581
induced hyperplasia of connective of seminal vesicles in rats as influenced by adrenalectomy, 785

Glucagon
in vivo effect on hepatic glycogen, phosphorylase and glucose-6-phosphatase, 265
metabolism in rats, 277
degradation by rat tissue *in vivo*, 285
Growth hormone
of monkey origin, and N retention in hypophysectomized monkey, 166
bioassay by tibia test in hypophysectomized mice, 308
effect in relation to steroids on plateauing in adrenalectomized rats, 393
temporary diabetes in tube-fed rats, 698

Insulin
delayed absorption of various forms of, 333
and carbohydrate tolerance and the antiketogenic effects of glucose and fructose in sodium fluoroacetate diabetes, 446
antagonism in plasma, 625

Ovary
effect on cholesteremia in rat, 22

Pancreas
the effects of carbutamide on blood sugar level of depancreatized dog given insulin, 76
effect of glucagon on hepatic glycogen and phosphatases, 265
effect of fasting on insulinase activity and hypoglycemic response to insulin, 303
hypoglycemic action of metabolic derivatives of l-tryptophan, 318
"total" ablation: operation, effects and after care, 359
and the antiketogenic effects of glucose and fructose, 446
in relation to hepatic lipogenesis, 514
Parathyroid
blood calcium response in chicken, 1
calcium-mobilizing action suppressed by inorganic phosphate, 423
influence on blood calcium and shell deposition in laying hens, 778
Pituitary gland
nature of interrelationship with thyroid, 38
graft effects on bones and joints in underfed mice, 67
metabolism of thyrotropin, 118
ablation effect on chloride balance in frogs, 219
improved thyrotropin assay, 225
ACTH secretion as influenced by tranquilizing drugs, 239
factors influencing calorigenesis, 403
in relation to hepatic lipogenesis, 516
gonadotropin of fish stimulate trout testes, 559
secretion of TSH as influenced by hypothalamic lesions, 567
in relation to capillary resistance, 589
selective effects of hypothalamic lesions on secretion of trophic hormones, 689
gonadotrops in vitamin E deficient male rat, 729
extracts contain pepsin inhibitor, 797
gonadotrophin content of pregnant and pseudopregnant rats after ergotoxine, 802
antidiuretic substances in human urine, 6
reducing variation in antidiuretic assay, 597
oxytocin in human female blood, 652
pars neuralis extracts release ACTH *in vivo*, 664
antidiuretic activity in plasma of marsupials exposed to heat, 679
Placenta
transfer of perchlorate and triiodothyronine in the guinea pig, 53
Progesterone
"anesthesia," and plasma levels, 164

-like activity of stereoisomers of 19-norprogesterone, 681

Steroids
anti-inflammatory action with local application, 153
protein hindrance of pregnanediol recovery, 162
biosynthesis of allopregnane-3β, 16α, 20β-triol from acetate-1-C^{14} in the pregnant mare, 214
isolation of two corticoids from cattle bile, 368
hydroxylation *in vitro* of 21-C steroids by rat adrenal, 382
dose and ratio on plateauing in adrenalectomized rats given growth hormone, 393
formation *in vitro* by human and monkey adrenals, 433
effects of ethinylandrostenediol 3-cyclohexylpropionate on the reproductive tracts in rats, 519
in relation to acetylation of sulfanilimide, 602
2-methyl-9-fluorhydrocortisone in maintenance of adrenalectomized dogs, 658
progestational activity of various stereoisomers of 19-nor-progesterone, 681
in vivo metabolism of corticoids in perfused dog livers, 705
effect of analogues of hydrocortisone on blood pressure in rats, 768

Testes
effect on cholesteremia in rat, 22
hyaluronidase concentration as influenced by furadroxyl and x-irradiation, 105
castration changes in rat prostate by electron microscopy, 185
maturation in trout given fish gonadotropin, 559

Thyroid gland
effect in B-12 deficient chick embryos, 13
uptake of I^{131} as influenced by B_{12} deficiency in adult and embryonic chickens, 28
nature of interrelationship with pituitary, 38
placental transfer of perchlorate and triiodothyronine in the guinea pig, 53
effect of brain tissue on metabolism of L-thyroxine and L-3:5:3′-triiodothyronine, 83
physiologic activity of thyroxine and a formic acid analogue, 161
effect on salivary enzymes after hypophysectomy, 200
thyroxine potentiation of adrenalin as influenced by temperature, 205
function in fetal sheep, 325
hormone loci of action on reproduction in the female guinea pig, 337
exophthalmus in Fundulus as produced by triiodothyronine and desiccated thyroid, 390
activity as influenced by dehydration, starvation, and pitressin injections, 470
and blood protein-bound iodine in fowl, 547
fetal and maternal function in sheep on low I^{131} intake, 565
effect on hepatic necrosis of dietary origin, 711

Thyrotropin
metabolism of, 118
an improved assay method, I^{131} depletion in day-old chick, 225
secretion after thyroidectomy, as influenced by hypothalamic lesions, 567
a new assay based on thyroidal phospholipid turnover *in vitro*, 683

Uterus
glycogen levels of skeletal muscles during pregnancy, 33
glycine-C^{14} uptake *in vitro* as influenced by sex hormones, 270
importance of cortisone in promoting estrogen-withdrawal bleeding in hypophysectomized baboon, 570
